INTRODUCING A UNIQUELY POWERFUL APPROACH TO LEARNING AND COACHING

Ontological Coaching is an extraordinarily powerful methodology for generating real change at the individual, team and organisational level. It is highly effective because it is based on a new practical understanding of the power of language, moods and conversations for sustainable behavioural and cultural change.

WAY OF BEING

Ontological Coaching focuses on our **Way of Being**, which is a dynamic interrelationship between three areas of human existence – **language, emotions and body**. Way of Being contains our often deep-seated perceptions and attitudes and is the underlying driver of our behaviour and communication. Ontological coaching has a holistic orientation that respectfully generates learning in all three areas of language, emotions and body as the catalyst for substantive and sustainable change.

WORKSHOP CONTENT

The workshop is interactive and highly experiential and includes coaching practice.

At the end of the workshop, you will be able to:

- Understand the conceptual framework and principles of Ontological Coaching
- Understand how specific linguistic actions shape reality and how they can be used effectively in coaching to shift behaviour
- Apply a different and deeper approach to the role of listening in coaching
- Understand the pivotal role of moods and emotions in coaching for deep and sustainable change
- Recognise, work with and shift the ways moods and emotions impact on communication, behaviour and performance
- Observe and work with the interconnection between basic moods, body posture and language

WHO WILL BENEFIT FROM ATTENDING THIS WORKSHOP?

Ontological Coaching and Leadership in Action is highly applicable for:

- Existing and aspiring coaches
- Organisational consultants, leaders and managers
- Professionals operating in highly people-focused environments
- Individuals interested in substantive personal development
